

FANUC CERT Certification

eLEARN TRAINING

ROBOGUIDE SIMULATION

The Certified Education Robot Training (CERT) program is a new certification available to qualified high schools, community colleges, universities and Industry. The program certifies instructors at educational institutions to train their students to program FANUC robots.

The certification course comes complete with Student textbooks for Basic Robot Operations, Handling Pro (Roboguide Simulation), Basic Handling Tool Operations and Programming 1 and Basic Handling Tool Operations Programming 2.

The Fanuc **eLearn** offers students convenient access to Robotics interactive, self-paced instruction over the internet. **Roboguide** allows users to create, program and simulate a robotic workcell in 3-D without the physical need and expense of a prototype workcell setup.

Fanuc Robotics certification program also makes available complete Project Based Learning packages to include: Battery Package, Battery Package with iRVision and 2D Error Proofing, Pill Sorting with iRVision 2D & Contrasting colors
